

SALVESEN LOGÍSTICA FOOD SAFETY POLICY

SALVESEN LOGÍSTICA Quality and Food Safety Management System has the purpose of guaranteeing the safety of stored and transported products by SALVESEN LOGÍSTICA, thanks to the fulfillment of all the requirements, not only those specified by the client and the legal or regulatory ones but also those necessary to ensure the safety of the products during the complete service.

Storage, handling and distribution, as links in the food chain, must ensure that food is safe and reaches the delivery points, under optimal commercialization and consumption conditions (temperature and integrity of the product and packaging). To do so, we count on measures, actions and procedures that guarantee the safety of the food we distribute. In general terms:

- ✓ The measures established to ensure food hygiene and good conditions comply with the general food products refrigerated storage requisites and those of land transport of food products, according to the context of our organization.
- ✓ Acquire the commitment to define and distribute our organization Food Safety policy and the requirements established in the field of Food Hygiene enhancing the knowledge, understanding and application by every employee, thus ensuring the competences related to Food Safety
- ✓ Guarantee compliance with the legal requirements that affect our activities, especially those focussed at ensuring the traceability and hygienic conditions of our facilities, as well as applicable standards and good practices, including the requirements established by customers and the rest of concerned parties.
- ✓ Have always present that we work with the objective of pursuing the continuous improvement of our processes in relation to Food Safety.
- ✓ Encourage communication both internally and externally with all concerned parties to be able to act in an agile manner in case of any need.
- ✓ Ensure the conscience the food chain, having all the necessary mechanisms to act against any situation of product withdrawal, through the implementation of crisis management systems, food defense and food fraud.

This Policy establishes a framework for the establishment and revision of our Food Safety objectives.

This Policy implementation is a fundamental objective of the directorate, and it is the responsibility of all employees to comply with it to ensure transparency and continuous improvement of all Salvesen Logística processes.
